Welcome to Weather-Above

J **Cheddleton Light Seekers** **What we got up to on 4/02/2009** **Next**

We had a guest, Mike, who came in to show us a presentation from a local nature reserve Coombes Valley. He talked about different types of birds and how they managed the reserve. Thank you for sharing what goes on in Coombes Valley nature reserve, we look forward to joining you in the summertime to take part in a pond dip there. When the presentation had finished we all got involved in a craft activity making bird feeders. The components used for the bird feeder were recyclable lids from coffee and chocolate jars, some metal meshing, cable ties and a hot melt glue gun which everybody thought was very cool. We decided to make these bird feeders to help the birds especially in these difficult times when snow has fallen. God's Word teaches us to help and look after wildlife. Everybody also made some bird fat balls. The light seekers had to mix lots of bird seeds into a mixture of lard and filled some small nylon mesh bags to hold everything together to make it easy for the birds to eat. At the end of the evening we all shared in a prayer and praised God for his amazing garden and all the creatures that live there.
