

New Life Christian Fellowship

Have you ever followed a sat nav on a journey – with out a map? Now that's faith! You trust the computerised system to guide you. Has your sat nav ever failed? I remember going round and round a roundabout, as the directions left us lost!

In life we can feel lost too. We follow different paths that lead to disappointing dead ends. What's it all about?

Jesus is looking for those who are lost, calling us; waiting for our response.

Some of us are in the dark. Disbelief, anger, disappointment make us cry: "Where are you God?!" Jesus is here, waiting for you. He has not abandoned you. He knows your pain because he felt its agony on the cross.

Some of us who follow Jesus have wandered off; ended up on rough ground, surrounded by trouble. Jesus is calling you back. It is a narrow path to find, but he will show you the way.

Maybe you are a faithful follower, but you feel like you are wandering around, with no purpose or direction. Stop, sit down and talk to your maker. Listen for His voice. You may be here because you went the wrong way, you missed a turning; you need to reset your bearings, retune your focus.

God is with us on our journeys. He knows the best route. He knows where we can use our unique gifts and talents best, for His purpose, practice them till perfection.

In a sat nav you have to put your final destination. Type in "Heaven" and Jesus will lead you there. It's a bumpy, twisty road on a challenging but worthwhile journey. Sometimes you'll wonder "what's going on!?". You may go off track. If you listen to His voice, He'll guide you and be with you every step along the way, until you reach home. What is your eternal destination? (Read John 14:1-28)

Community Centre, 10.45am Sundays, all welcome. Call 01834 831533/07827293781 if you want to talk or would like us to pray.
