

Ladies Pampered Again For Darcy's Fund

By Sharron Hardwick

After last years successful pamper day in Tavernspite, a local ladies group met for another relaxing treat; this time in Lampeter Velfrey.

Revisited by Kath Parry-Thomas, fully qualified holistic therapist from Staffordshire Moorlands, the ladies experienced a number of relaxing therapies including mini facials, hand and arm/foot and leg massages; all with the use of blended pure essential oils.

This was not organised for refreshing alone, but for Darcy's Fund; an excellent cause headed by brave mum Tammy Strangward, as a tribute to her beautiful baby daughter.

Darcy's Fund was founded in 2009 by Tammy Strangward and Martin Keane in loving memory of their precious daughter Darcy; who sadly died in June 2009 from Mitochondrial Disease, a rare genetic disorder, at the age of only four months.

Since their tragic loss, Tammy has bravely raised funds, hoping to help parents facing similar situations. Her aim is to provide life saving equipment for Withybush Children's Ward, Haverfordwest.

"All the money raised for Darcy's Fund will be used to purchase equipment for Withybush Children's Ward. My little angel's memory will live on forever, I hope this will be her legacy." said Tammy.

Darcy's memory continues every time funds are raised and equipment is bought.

Tammy will soon be revisiting the Children's Ward, who lovingly cared for Darcy during her precious life. She shared how difficult this re-visit will be, but her bravery will help to improve the lives of other children.

"To encourage Tammy, I wanted to focus on the difference she's making with Darcy's Fund. Darcy's legacy is saving, and improving, the lives of other children, giving them life and hope. Please support Tammy's worthy cause, giving other children essential care." shared visiting Holistic Therapist Kath Parry -Thomas.

To make a donation to Darcy's Fund please visit any Lloyds TSB Bank giving to: Darcy's Fund, Sort Code: 301620 Account Number: 01165933.

For more information visit Darcy's Page on Facebook. To sign a petition and help call for the British Government to put money into Mitochondrial Disease research and make people more aware of the awful disease visit:
